

Anastacia, Beautiful Messed Up World

Don't tell me i can't fight
I'm dumb enough to try
Maybe we'll fall or maybe we'll fly

Life's like music, I won't turn it down
Gotta live it loud
And loves a groove that keeps us spinning round
In this beautiful messed up world
In this beautiful messed up world

Oh people say people say that the world is so cruel
But i just don't jdon't buy it
There's in beauty in everything life throws at you
If you're looking for the truth

I'm tired of all this pain
And negativity
I know it's time for us all
There ain't no guarantees
But i'm dumb enough to dream
Whether i wake with a smile or scream

Life's like music, I won't turn it down
Gotta live it loud
And loves a groove that keeps us spinning round
In this beautiful messed up world
In this beautiful messed up world

Keep your head in the sky
And your feet on the ground
Let your voice become part of the sound
So be right so be wrong
Be whatever you want...
In this beautiful messed up world

Life's like music, I won't turn it down
Gotta live it loud
And loves a groove that keeps us spinning round
In this beautiful messed up world
In this beautiful messed up world

Life's like music, I won't turn it down
Gotta live it loud
And loves a groove that keeps us spinning round
In this beautiful messed up world
In this beautiful messed up world
In this beautiful messed up world
In this beautiful messed up world
