

And Oceans, Comatose: The World Amnesia: Planet Dead

Comatose: The World Amnesia: Planet Dead

I love this world

And these people, the beautiful ones

I love this world

And your goddamn sun

I love this world

And the family of fragile dreams

I love this world

When the world goes to sleep

[Chorus:]

You're so pretty - planet dead

You're so pretty - planet dead

You're so pretty - planet dead

You're so pretty - planet dead

I love this world

Empty with its black holes

I love this world

And the ones without a soul

I love this world

With a bullet for each one

I love this world

When tomorrow never comes

[Chorus]
