

# Andain, Make Me

Who's gonna make me leave  
Who's gonna make me stay  
Who's gonna walk away and  
Who's gonna make my day

And how's it gonna be and  
Who's in the game to play  
If you want you will find me  
But you don't wanna see!

How does it feel  
What do you know  
Is it the end  
And it won't be what it is

How does it start  
Isn't it clear that  
I'll never be alright

How do you know  
What does it mean  
That I'll never be alone  
That I'll never be alone

You want to pressure me  
You want to make me crazy  
And you just might succeed but  
My resolve is not that hazy

You want rescue me  
I think that's pretty funny  
You thought that this hurts me  
But you don't wanna see!

How does it feel  
What do you know  
Is it the end  
And it won't be what it is

How does it start  
Isn't it clear  
That I'll never be alright

How do you know  
What does it mean  
That I'll never be alone  
That I'll never be alone
