

# Andi Deris, Did It All For You

There was a time  
There was a place  
Where every flesh was light and laughter  
Did not need any nations  
All has been one  
But you were bored in paradise  
There was no thrill and no adventures  
So you began to push me  
And now you're gone  
Way down I did it all for you  
Way down I did it all for you  
It's said and done  
It's said and done  
All you are is light in the sun  
Way down I did it all for you  
You chose a world in material space  
And I promised you independence  
But you could always call me  
I hear you pray  
So many lost their link to me  
What was a truth is long forgotten  
Now it's time to wake up  
And find back home  
Way down I did it all for you  
Way down I did it all for you  
It's said and done  
It's said and done  
All you are is light in the sun  
Way down I did it all for you
