

# Andi Deris, The Best You Don't Need To Pay For

Grey days  
To be or not to be?  
Who are we?  
It's a mystery  
Always  
We have bled for  
The Grail of life  
Though it's just next door

The best you don't need to pay for  
The best you don't wait to come  
The best you don't need to pay for  
Always on the run

Time flies  
Many thousand years  
And slowly  
The stupor disappears  
People  
Stand up one by one  
To find out  
What makes the world go round

The best you don't need to pay for  
The best you don't need to buy  
The best you don't need to pay for  
Recall and realise  
The best you don't need to fight for  
The best you don't wait to come  
The best you don't need to pay for  
Always on the run  
The best you don't need to pay for
