

Andrea Remanda And Bryan Adams, If You Believe

Once upon a time I always did as I was told
(Yeah)
And every day and night I tried to make it on my own
But I had a secret, I needed someone there to tell
You said look inside yourself, you can break the spell
Believe the voice inside of you
Live out your dreams and make them true
Through your eyes, I may see
With your love, you set me free
Wishes can come true if you believe
I opened up my eyes and every wish I had was granted
And to my surprise I found myself with you the night chanted
(Yeah)
Everyone can make a change, I knew that when I met you
Together we can make it if you feel it too
Ohh
Believe the voice inside of you
Live out your dreams and make them true
Through your eyes, I may see
With your love, you set me free
Wishes can come true if you believe
(If you believe in love)
Wishes can come true
(If you believe in love)
Wishes can come true if you believe
(If you believe in love)
Believe
Believe the voice inside of you
Live out your dreams and make them true
Through your eyes, I may see
With your love, you set me free
Wishes can come true, ya, if you believe
(If you believe in love)
Live out your dreams and make them true
(If you believe in love)
Through your eyes you help me see
With your love, you set me free
Wishes can come true if you believe
