

Andrew Vincent And The Pirates, Snow Shake

Hey hey come outside and play
It's snowing out and we don't work today
Well tuck that smile into that coat and you won't feel a bit of cold

And I'll put on my hat and gloves
And in the snow we'll fall in love
Well me and you are gonna get along
As long as you get your fash on
Get your fash on
Get your fash on
Get your fash on

Hey hey I'll meet you outside I got my mittens all ready for the snowball fight
I'll tuck myself into that coat so I will never feel the cold
Well you put on your hat and gloves
And in the snow we'll fall in love
Well me and you are gonna get along
As long as you get your fash on
Get your fash on
Get your fash on
Get your fash on

Hey hey come inside and play
We got the fire all ready for the holidays
We'll tie that box up with a bow
And now I might pop someone you know
And I'll turn down the thermostat
If you put on your new stocking hat
Well me and you are gonna get along
As long as you get your fash on
Get your fash on
Get your fash on
Get your fash on.
