

Andru Donalds, Snowing Under My Skin

I feel it snowing under my skin
It keeps my window as blown in the wind
I feel it snowing under my skin
That's what it means to love

I feel it snowing under my skin
I keep on falling into this dream
I raced my heart and just let you in
That's what it means to love

Oh It's breaking up my heart
Whenever I'm apart from you
I feel it snowing under my skin
You keep on saying 'We can not win'
When you come finally
two independent hearts are here just to begin

For I need you, I want you
And I love you more
And I give you all of my life

I feel it snowing under my skin
I thought I'm saying don't mean a thing
I feel it snowing under my skin
That's what it means to love ohh

See the child inside the man
You keep my life in hands
My one and only chance
Every word becomes a kiss
Reminds me of your face
It's you I can't replace
(I feel it snowing under my skin)

For I need you, I want you
And I love you more
And I give you all of my life

I feel it snowing under my skin
There will be patience over again

I feel it snowing under my skin
That's what it means to love ohh

I feel it snowing under my skin
It's starting over close to that win
'cause there won't be an end
To the love begun from here

I feel it snowing under
I feel it snowing under
Yeah...
I feel it snowing under
I feel it snowing under

.....
I need you, I loved you
I love you more than I can say
I feel it snowing under
I feel it snowing under
I feel it snowing....ohh
I feel it snowing....ohh

(What about us...) (fading)
