

# Andy Burrows, Because I Know That I Can

I might wait forever to tell you what's wrong,  
I might tell you to your face, but only when you're gone

Cause I know that I can, I know that I can

I might wait a lifetime, to make my lifetime plan  
It's better late than never, I'll do what I can

And I know that I can, I know that I can  
Cause I know that I can, I know that I can

Now it's something, you can really mean something in this world  
Could I be someone, could I be someone you might hold?  
Could I be someone that you'd miss, I'd be someone you could kiss  
Take a look at this aching heart  
Everything I ever dreamed about was here, right here

I might wait forever to tell you what's wrong,  
I might put it down in words or sing it in a song

Cause I know that I can, I know that I can  
I know that I can, I know that I can
