

Andy Gibb, Desire

Ah..... Ah....

We may be big or small or black or white , eternally
And black and white is you and me in a special light
We may be young or old or in between ,but this much I know
Together we can learn to grow
In a world that's ever turning it's back on you
If you give it all away ,
make it mine ,ine , ine , ine , mine
You are desire , everything you need
I give you right or wrong
And you are the woman that I
base my whole existence on
And when I get to you my
desire is glowing in your light

These are the golden years we get to live
we lead the way , tomorrow we can start today
in a special light

Love could be good or bad or in between
but this much I learn

Baby , you and I can learn
In a world that's rearranging it's reality
If you give it all away
make it mine , ine , ine , ine , mine
You are desire , everything you need
I give you right or wrong
And you are the woman that I
base my whole existence on
And when I get to you my
desire is glowing in your light

Ah...

And it's nice to light a fire
when it's cold outside
If you give it all away
make it mine , ine , ine , ine , mine
You are desire , everything you need
I give you right or wrong
And you are the woman that I
base my whole existence on
And when I get to you my
desire is glowing in your light
