

Andy Griggs, Careful Where You Kiss Me

Standin in the mirror
Rinsin off my razor
Wishin I was still in bed
Youre sneakin up behind me
With nothin but a towel on
you start breathin down my neck

If you dont wanna spend the rest of this day
Lyin in the dark and drivin each other crazy
Careful where you kiss me

Chorus:
I love your sweet good mornin baby hugs
But you know how your soft lips tear me up
Careful where you kiss me

You know every button
You know how to push em
And which ones turn me on
youre puttin me on the spot
oh now baby dont stop
cuz girl im not that strong

I dont know how far you want this to go
but I might just lose control
Careful where you kiss me

Chorus:
I love your sweet good morning baby hugs
But you know how your soft lips tear me up

Chorus:
I love your sweet good morning baby hugs
but you know how your soft lips tear me up
Careful where you kiss me
Careful where you kiss me
Careful where you kiss me
