

Andy Griggs, The Road To Lasting Love

You ready?

Been down this street so many times
Could hit the gas and close my eyes
And not touch a thing
The doorways here are always dark
Keep movin its not safe to park
This aint no lovers lane

Its where infatuation goes
You hit this long strange stretch of road
And you dont know where it leads

But if were going anywhere
Only this will take us there
So baby hold your breath and wrap your arms around me

Chorus:
Here we go now
A little bit closer
Keep your head down
On my shoulder
Were on our way
But its gonna get rough
On this road
This road to Lasting Love

Look into the rear veiw mirror
Remember all that got us here
Were gonna need it later
Out the window all around
Dreams in peices on the ground
Cuz it wont be easy baby

You know that faith and hope and trust
Aint ridin in these hearts with us
This trips gonna break em

Ive never seen the other side
But girl when you look in my eyes
Ive seen it out there
I beleive that we can make it baby

Chorus:
Here we go now
A little bit closer
Keep your head down
On my shoulder
Were on our way
But its gonna get rough
On this road
This road to Lasting Love

Theres a light up ahead that we all wanna reach
So we grab every chance that we can
But we lose and get lost
Just a few get across
This broken promise land

Chorus:
Here we go now
A little bit closer
Keep your head down
On my shoulder

Were on our way
But its gonna get rough
On this road
This road to Lasting Love

Chors:

Here we go now
A little bit closer
Keep your head down
On my shoulder
Were on our way
But its gonna get rough
On this road
This road to Lasting Love

Road to lasting love

Road to lasting love
