

Andy Partridge, I Wonder Why The Wonderfalls

We're bobbing along in our barrel
Some of us tip right over the edge
But there's one thing really mystifying
Got me laughing, now it's got me crying
All my life I will be death defying
'Til I know

I wonder wonder why the wonderfalls
I wonder why the wonderfalls on me
I wonder wonder why the wonderfalls
With everything I touch and hear and see

We teeter along on our tightrope
Some of us trip and damage our heads
Popping pills is really stupefying
Gets you crawling when you could be flying
All my life I guess that I'll be dying
Just to know

I wonder wonder why the wonderfalls
I wonder why the wonderfalls on me
I wonder wonder why the wonderfalls
With everything I touch and hear and see

Don't you ever think about this life
And how strange it all can seem?
Only way to find the answers out
Is to wake up from its golden dream

But there's one thing really mystifying
It's got me laughing, now it's got me crying (ha ha ha ha)
All my life I will be death defying
'Til I know
'Til I know
'Til I know (really really need to know)

I wonder wonder why the wonderfalls
I wonder why the wonderfalls on me
I wonder wonder why the wonderfalls
With everything I touch and hear and see

I wonder wonder why the wonderfalls (I wonder why it falls)
I wonder why the wonderfalls on me (I wonder why it falls, I wonder why it falls, it falls on me)
I wonder wonder why the wonderfalls
With everything I touch and hear and see

See, I told you I was right about the wonder wonder wonder wonder
Wonderful ahh the wonderfalls
I've got to find out from where the wonderfalls
