

# Angel, Mama's Little Girl

Here's a little story  
'Bout a girl I know  
And this is how the story goes

Never fitting in  
That was the life she chose

All the other girls gotta be so mean  
Always try to bring her down

Whisper and a stare  
Whenever she's around

But now its changed  
Never knew what she'd become  
She's not the the same

They play their games  
And call her names  
And break her self-esteem  
They didn't know  
In time she'd grow  
To be a beauty queen

[Chorus]  
Mama's little girl likes teasing the boys  
Gotta put them on a string baby just like toys  
Never gonna change no you better not try  
Cos mama's little girl  
Likes to make the big boys cry

Yeah she got it going on and  
No-one's gonna stop her

Mama's little girl likes teasing the boys  
Yeah mama's little girl likes to  
Make the big boys

Now she walks by  
And she catches their eye  
She's looking fine  
But she's making them wait  
Making them stand in line

And all the other girls  
Wanna be her friend  
Funny how it turns around  
She's got it all  
She's the one that's laughing now.

And what she wants  
Is what she takes  
There's no more playing shy

For all those years  
And all those tears  
No matter how they try

She lines them up and knocks them down  
And kisses them goodbye.

[Repeat Chorus x1]

Yeah she got it going on and

No-one's gonna stop her

Mama's little girl likes teasing the boys  
Yeah mama's little girl likes to  
Make the big boys

And what she wants  
Is what she takes  
There's no more playing shy

For all those years  
And all those tears  
No matter how they try

She lines them up and knocks them down  
And kisses them goodbye.

[Repeat Chorus x1]

Yeah she got it going on and  
No-one's gonna stop her

[Repeat Chorus x1]

Yeah she got it going on and  
No-one's gonna stop her

Mama's little girl likes teasing the boys  
Yeah mama's little girl likes to  
Make the big boys

[Repeat Chorus x1]
