

Angel Olsen, Forever Means

Come to find out I said those things
Knowing they may not be true
Spent all this time telling myself
How to believe in you
Forget all I said just look at the way
We are when we're there together
Each moment arrives, and then disappears but the searching goes on
forever

Forever forever
Forever means always looking
forever means trying to see
forever means saying what's on your mind
Forever means always trying to find
Forever means make sure, take your time
Forever in your eyes
Forever in your eyes
I see you when you shine
I see you when you shine
Forever in your eyes
Forever In my mind
