How many times to I pray to the distant flickering star  
The story pulled together by a wandering gravitation pulse

How long from the beginning, none can know the end  
No deception, no illusion, the flow that cannot be defied

(Dark) A demon abiding in the darkness  
(Blight) in order not to be easily swallowed  
(Longing for a Hero) I stay awake

If god tells, in a dream of old struggle is an integral part  
Even if this body it torn to pieces Looking for  
The beat that moves the flower in my heart that everyone can't stop  
It is destiny that we meet

I've forgotten how to smile, since when did I wallow in sorrow?  
A boring eternity, never going to change for the better by just waiting

(Deep) The forest within my heart  
(Pride) While my heart rate goes up  
(shaking (my) body) saying "Well, you have to go"

Despite being in sorrow I spew nothing but bravado  
The proof that I want to meet you one day  
An imagination, an icon, that alone won't be enough so don't stop  
To be attracted is agape

If you make is sharp, I can hear your voice  
To the end of this world, together with you

(gravitation) Embracing  
(transmigration) Repeating

If god tells, in a dream of old struggle is an integral part  
Even if this body it torn to pieces Looking for  
The beat that moves the flower in my heart that everyone can't stop  
It is destiny that we meet

Despite being in sorrow I spew nothing but bravado  
The proof that I want to meet you one day  
An imagination, an icon, that alone won't be enough so don't stop  
To be attracted is agape
