

Angela's Dish, Engine Stalled

always you'll be
right here with me
inside my heart
take time cause time takes
our lives and breaks all that we have
live fast, be strong
i know you're gone
and i'm hurting now
all alone the engine stalled
and i'm waiting on the inside
take a fresh and a tip for you
but i see you on the outside
on the outside
last time we spoke was some other day,
so glad you care
live fast, be strong
i know you're gone
and i'm hurting now
all alone the engine stalled
and i'm waiting on the inside (on the inside)
take a fresh and a tip for you
but i see you on the outside (on the outside)
and i'll never understand this as to why
and i never even got to say goodbye
then you were gone
Chorus x2:
all alone the engine stalled
and i'm waiting on the inside (on the inside)
take a fresh and a tip for you
but i see you on the outside (on the outside)
