Angela- were picture perfect  
-all of this time, guess I must have been blind  
Not to see you and me we're picture perfect  
I should be yours  
Baby, you should be mine  
Can't you see, you and me, we're picture perfect

Now baby we've been friends  
For such a long, long time  
We've been through laughs  
And we've been through cries  
But lately have you seen  
The way my tongue gets tied  
Can't hardly speak when I look into your eyes

It's because of the way I'm feelin'  
It's somethin' I never dreamed, no  
And our love has a different meaning  
It took so long to reveal, but now I know it

All of this time, guess I must have been blind  
Not to see you and me we're picture perfect  
I should be yours  
Baby, you should be mine  
Can't you see, you and me, we're picture perfect

I'm yours, be mine, guy- I like that, here we are, we're picture perfect  
I'm yours, guy- it's the remix, be mine, here we are, we're picture perfect

I showed some friends of mine  
My favorite photograph

You know the one of you and me from way back  
And when I told them all  
That you were not my guy  
They couldn't see it,  
Couldn't understand why

Everyone thinks it's so romantic  
They say we're two of a kind  
And the more that I think about it (that I think)  
The more that I realize  
What I've been missing

All of this time, guess I must have been blind  
Not to see you and me we're picture perfect  
I should be yours  
Baby, you should be mine  
Can't you see, you and me, we're picture perfect

My heart keeps tellin' me

Make up your mind, love's what you need  
You've been holding back for too long, yeah  
You know it makes good sense  
The best lovers are the best of friends  
I guess that we should have known all along

Guy- it's the remix  
Guy- it's the remix  
Guy- it's the remix

You should be mine

All of this time, guess I must have been blind  
Not to see you and me we're picture perfect  
I should be yours  
Baby, you should be mine  
Can't you see, you and me, we're picture perfect

All of this time, guess I must have been blind  
Not to see you and me we're picture perfect  
I should be yours  
Baby, you should be mine  
Can't you see, you and me, we're picture perfect
