

Angelfish, The Sun Won't Shine

You were mine
Pretty flowers in the gardens of town
Change or the sun won't shine
Change or the rain comes down

You were mine
But now it's the end of the inbetween
Gone are the days
When the ammunition was clean

Change or the sun won't shine

Outside
Stories of misdemeanours grow
Seeing the blade in the rays
Running for cover they go

Too late
How they come and how they fall
Baby cradle and all
Baby cradle and all

Close the door
Though it seems like we only kissed hello
It looks like it's time to go
It looks like it's time to go

In the light
Somehow the craziness dissolves
Change or the sun won't shine
Change or we end it all

Change or the sun won't shine
Change or the sun won't
Change or the sun won't shine
Change or the sun won't
Change or the sun won't shine
Change or the sun won't
Change or the sun won't shine
Change or the sun won't
Change or the sun won't shine
Change or the sun won't
