

# Angeli Di Pietra, Burning Hope

And as the world keeps turning day and night  
The power of hope's burning deep inside  
Burning in our hearts  
Burning in our souls  
Giving us the strength to carry on  
Fighting for our future  
Fighting for our dreams  
Battling for freedom  
With all means  
Waiting for our future  
Dreaming all our dreams  
Battling for freedom  
With all means  
And everything will be alright  
If the world keeps turning  
Everything will be alright  
If our hope keeps burning  
And everything will be alright  
If the sun keeps shining  
Everything will be alright  
If we keep on fighting  
And as the world keeps turning day and night  
The power of hope's dying deep inside  
Dying in our hearts  
Dying in our souls  
Taking all our strength, we can't carry on  
Fighting for our future  
Fighting for our dreams  
Battling for freedom  
With all means  
Waiting for our future  
Dreaming all our dreams  
Battling for freedom  
With all means  
And nothing is gonna be alright  
'Cause our hope is dying  
Nothing is gonna be alright  
We can't keep on fighting
