

# Angels & Airwaves, Lifeline

With an urgent, careful stare  
And some panic in those eyes  
If I see you lying there  
Hoping this was the last time  
If you hear a distant sound  
And some footsteps by your side  
When the world comes crashing down  
I will find you, if you hide..

And if you wish it, wish it now..  
If you wish it, wish it loud..  
If you want it, say it now..  
If you want it, say it loud..  
We all make mistakes  
Here's your lifeline  
If you want to, I want to  
We all make mistakes  
Here's your lifeline  
If you want to, I want to..

There's a field near the dream  
I watched it grow with the widest life  
I watched us all reach out and lean  
For the strength that touched the sky  
If you hear a distant sound  
And some footsteps by your side  
If you feel like coming 'round  
I will take you for a ride

And if you wish it, wish it now  
If you wish it, wish it loud  
If you want it, say it now  
If you want it, say it loud  
We all make mistakes  
Here's your lifeline  
If you want to, I want to  
We all make mistakes  
Here's your lifeline  
If you want to, I want to..
