

Angels, Dawn In Breaking

(R. Brewster-Amanda Brewster)

Child of fortune, silver streak
been bred for breeding, blood line elite
you've got passion, you've got poison
you've got second sight
you've got the child in you
better guard it with your life
You've got the child in you
you know you could be fighting
for the rest of your life
Fireflies fighting, shadows in the dark
full moon rising, try to kill that spark
you've got passion, you've got poison
you've got second sight
you've got the child in you
better guard it with your life
You've got the child in you
you know you could be fighting
for the rest of your life
