

# Angelspit, Fuck the Revolution

The TV burned, nobody watched  
The ratings sucked, so it got axed  
We keep screaming, you ain't listening  
Take your chainsaw, wield it recklessly  
Crash made, built to fade, fuck the revolution!  
The money's real but the blood is fake, fuck the revolution!  
The glossy mag, full of beauty  
Story got cut, 'coz they were ugly  
Martyrs of change, do not fight back  
Round and a round, martyrs of the new black  
Crash made, built to fade, fuck the revolution!  
The money's real but the blood is fake, fuck the revolution!  
Mediocre, bored to death, fuck the revolution!  
The brave new apathy, fuck the revolution!  
Then it got streamed, but some college kid  
Sued the ISP, for breach of copyright  
We keep screaming, you ain't listening  
Take your chainsaw, wield it recklessly  
Crash made, built to fade, fuck the revolution!  
The money's real but the blood is fake, fuck the revolution!  
Mediocre, bored to death, fuck the revolution!  
The brave new apathy, fuck the revolution!
