

Angelspit, Infect

Teeth nailing
Their own tongues
Anger rising up in torn lungs
Rack, shackled in torture
Severed veins reach up
In rapture
Crawl into
Nightfall
Fetuses in
Plastic walls
Black tempest
The snake
Madly scraping
Back the fake
[Rip skin
Bind fist
Infect the mother
Flick the switch
Grind skull
Gods shit
Infect the mother
Flick the switch]
Slash pretty
When she dreams
Stalking breath as leather screaming
Hail Mary
Horror beads
Eyes that cut through shadows, seething
Choke frantic
Constrain
Manically scratch off the stain
Virgin daughters
In line
Marching off to matricide
