

Angelzoom, Sapphire Sky

One day in summer
A light comes to me
Opens up my heart
And leads me to
A place where sadness
Melts like winter snow
A place full of faith
A little peace of heaven
The sun shines high
In a sapphire sky
Fly away my butterfly
One night in summer
The light comes again
It brings me hope
Delivers me from pain
And assures me gently
When night turns into day
And spring into summer
You will find the way
The moon shines bright
In a starry night
Fly away my butterfly
You will find the way
You will find the way
You will find the way
You will find the way
