Valparaiso

Take away the dark clouds
From the world you see
Clear the haze around us
Please don't rain on me
Tear the page of your doubts
From the words you speak
Chase that pain on your brow
Life can't be so bleak I could follow you
Whatever we go through
Do all that I can do
Just to be there
Somewhere else
You'd rise above the rest
Than talking to yourself
Going nowhere

See the day come shining
Right in front of you
Set your sails a-gliding
Let the stars guide too
Anywhere the wind blows
Is better than these blues
Find your way, you're so close
Heaven can come true

I could follow you
Whatever we go through
Do all that I can do
Just to be there
Somewhere else
You'd rise above the rest
Than talking to yourself
Going nowhere
You could be sailing in a beautiful world
