

# Angie Stone, Life Goes On

[Intro]

One for the road  
Check it  
Kind of natural, yeah

Look at then and when you got caught up  
Reminiscing 'bout the past  
Driving by on easy street  
Thinking 'bout that we'd be here to last a long while  
And real talks, every night and then an argument  
But all in all we both knew  
If nothing else, our love was heaven sent

[1] - Life goes on

Life goes on  
Life goes on  
Life goes on

My brother Petey would say  
If you knew then like you know now  
Would you get down the way you get down  
Would you glorify, idolize  
Find the time, mystify 'bout life  
Oh, why can't we be kinder  
Joy that's hard to find  
Lord please give me a sign  
To some of us here right now  
Don't think you'd ride on this thin ice  
Without goin' down  
Cuz time is running out  
And will you be able to reach solid ground  
Can only sing the words  
It's up to you to listen  
Show you the path to the garden  
You got to follow me in

[Repeat 1]

Hey boo, here's to thanking you  
For all that we've been through  
It taught me how to love myself and now  
You, and you I give my blessing  
And I hope and I thank God  
That's true for me and my boo  
Oh, Lord

[Repeat 1 with ad libs until fade]
