Miscellaneous

Brand New Girl

I'm gonna skin you alive, and make a
suit out of your hide

And then I'll go downtown and

I'll make believe I'm you

I'm gonna put your favorite dress on,

I'm gonna put on your perfume

I'm gonna go out and find out

what it's like to be you.

I'm gonna flirt with all the boys,

I'm gonna be so fucking coy

And they won't know inside it's me - it isn't you

And while I'm being you, you'll get your

taste of being me

All alone and crying, dying with no one

around to see

I won't be there to help you this time, now you'll

learn your lesson

I'll be out with your red dress on , giving it

away for free

I'm gonna be a brand new girl, I'm gonna own this

whole damn world

At every party I will be the queen

I'm gonna find out what's so great about

everything I hate

From now on I'm you and there is no more me

It didn't have to come to this, but I guess

life is full of twists

And love is just one breath away from hate

We could have been the biggest thing since they

crowned the Presley boy the king

But now it's time for me to end this stalemate.
