Miscellaneous

Jesus, Please Come On Down

Jesus, please come on down

Please come and see me when you're in town

I'm waiting, waiting around

Please come on down

Come on down when you're in town

Jesus, please lord stop by

I'm all alone, I don't know why

Maybe you'd like a beer

Why don't you come down here?

Come down here

Come on down

Jesus, I'd like to talk

Why don't you come see me

We can go for a walk

Down the road we'll walk a ways

And you can take me up your highway

Lord come on down

Jesus I'm so confused

Why don't you come and see me

Tell me a little bit of truth

Old Scratch tells me that he knows all the answers

Says he's gonna set me free, lord come on down

Jesus, don't let him win

I love her Lord, tell me why is that a sin?

The clock up on my wall is winding down

Oh help me please Lord come on down

Jesus, don't let him win

I love her Lord, tell me why is that a sin?

The clock up on the wall is winding down

You gotta help me out here, Jesus

You gotta come on down

Please come on down

When you're in town

Lord come on down
