

Angus & Julia Stone, Purple Skivvy

Haven't felt my heart beat in fifteen years
I haven't felt my heart beat
Since I saw you standing here
Love is not a that I forgot to think
When in this life will I get love right?
I, I haven't got what I need from you
Purple skivvy remarks, you know what they are
Memories attached to for [Incomprehensible]
I'm one of those girls who carries on the lie
I'm one of those people who never get facts right
I, I haven't got what I need from you
I, I haven't got what I need from you
What I need from you, what I need
I, I haven't got what I need from you
What I need from you, what I need from you
What I need from you
