

Ani Lorak, Car Song

Nobodys at the filling station
My heart is filling up with tears
All gets me funny invitations
The night is cold, the way is clear

Refrain:

I don't want somebody else
I don't want play anymore
Give me just one more chance
Otherwise
Let me go

I switch off noisy music station
The silence comes into my car
You were my dream and my creation
Though in my dream I went too far

Refrain:

I don't want somebody else
I don't want play anymore
Give me just one more chance
Otherwise
Let me go

You was my dream and my creation
Though in these dream I went too far
