

Ani Lorak, Untie Me

Anybody knows when to stop
But very few got to the top
Love is like a prison for me
Love is just a reason to be

Refrain:
Untie me
But never let me go from your hands
I try now
Just tell you something you'll understand
Let me whisper words I'm sure that you hear
Give me one thing that I do really need
The freedom to be near

Everybody's got to be free
Freedom is the one thing I need
You're the only man that I breathe
Don't you ever treat me like kid

Refrain:
Bridge:
I love you so but feel myself so guilty
Try to unchain my love
I always will be near my love to feel you
Until we have rest above.
Refrain:
