

# Animal Collective, Seal Eyeing

me,  
slowly walking, going to see the  
seal  
swimming in the lake of melted  
ice.  
The minnows they are catching must be  
good.  
They stay so long, entreat us too  
write  
Of getting close to nature. People  
know:  
It's a good time for a photo, can't let  
go.  
But the ice should not be melting every-  
where,  
Swimmin' around and melting on the  
shore.  
Our shores will all be dripping round a  
swirl.  
Now there's no time for a photo but  
Ah, good to swim in sunshine...
