Animal Collective, Seal Eyeing

me,

slowly walking, going to see the seal

swimming in the lake of melted

ice.

The minnows they are catching must be good.

good. They stay so long, entreat us too write

Of getting close to nature. People know:

It's a good time for a photo, can't let go.

But the ice should not be melting everywhere,

Swimmin' around and melting on the shore.

Our shores will all be dripping round a swirl.

Now there's no time for a photo but Ah, good to swim in sunshine...
