

Animators, No!

Sky has taken this option from us
we can fly around without spreading the sun
could you be more patient and wait one moment more
ahead there's a shore...

destroy your sanity
don't damage your mind
be careful once more
there still is a trap...

No, cause I'm busy looking for my way back home again
I can't find out this world, which is so deep inside me
I have to regret!

So now is the time to say goodbye
remember this words turn off the light
don't say anything cause somebody might hear
when we lie...

destroy your sanity
don't damage your mind
be careful once more
there still is a trap...

No, cause I'm busy looking for my way back home again
I can't find out this world, which is so deep inside me
I have to regret!

No, cause I'm busy looking for my way back home again
I can't find out this world, which is so deep inside me
I have to regret!

I say what I've said...
