

Ann Beretta, Brothers At Arms

Working all day to look a devil in the eye
we're brothers at arms and we fight a good fight, just another line to record my time
standing together through the wrong and the right, i tell you right now that i know a thing or two
together we stand and together we fall, i'll tell you right now that i do know more than you
standing as one you know we stand tall, try so hard i wanna figure out if i'll take it
tell you right now i don't wanna do without
will fake it?
