

Ann Nesby, (What A) Lovely Evening

No not another lonely night
Knowing that you love me
Doesn't make it right
So I'm asking for one thing
To fulfill my dream
What a lovely evening it will be
What a lovely evening it will be
If it's only you and me
I'll set the mood perfectly
So intensely romantic
I'll love you endlessly
If you'll give me one night distraction free
What a lovely evening it will be
What a lovely evening it will be
If it's only you and me
And if I could have my way
Our lovely evening would be today
Why don't you take me there
There's no way I'd hesitate
When you call to make a date
I'll be right there waiting and willing
For your loving arms
What a lovely evening it will be
What a lovely evening it will be
If it's only you and me
