

Anna F., DNA

It's OK
I'm just gonna clap my hands
It's OK
I just wanna fuck your friends

Somewhere there's a fly in the spiderweb
I feel like Pinocchio
Creating lies in the waiting room
But there's help on the way

Somewhere maybe over the rainbow
That's where all the vampires roam
Sucking the life out of baby boop
boo boo boobie do

It's OK
I'm just gonna clap my hands
It's OK
I just wanna fuck your friends

I don't care
It doesn't matter what you see
Anyway
You know it's in my DNA
My DNA

Something about the way that it moves me
Dancing on remote control
I follow the call of the wild bug?
There's help on the way

I just wanna make you love me
I just wanna make love
I just wanna be a wild thing
Like a puppet on the ...

It's OK
I'm just gonna clap my hands
It's OK
I just wanna fuck your friends

I don't care
It doesn't matter what you see
Anyway
You know it's in my DNA
My DNA

It's OK
I'm just gonna clap my hands
It's OK
I just wanna fuck your friends

I don't care
It doesn't matter what you see
Anyway
You know it's in my DNA
My DNA
