

Anna Margaret, Something About Sunshine

Wake up to the blue sky,
Grab us shades and let's go for a ride,
Breakfast by the ocean,
We'll do lunch at sunset and vine,
Everyday I'm dreaming in California
Every night starts come out to play
Wish that I can always follow this way
There is something about the sunshine baby
I'm seeing you in the whole new light
Out of this world for the first time, baby
Ooh, it's alright
There's something about the sunshine (2x)
In Hollywood we're rockin in
Malibu we hang out and chill
It's all about the shopping from
Melrose to Beverly Hills
Everywhere is a scene and now we're in it
I don't wanna paint this town alone
When I see you smile I always feel at home
There is something about the sunshine baby
I'm seeing you in the whole new light
And he's a breeze with the palm tree swaying
Ooh, it's alright
Never to hear (never to hear)
It's suddenly clear (it's suddenly clear)
The sun's coming through I never know
Whatever I do, I'm better with you
(It's better with you)
There is something about the sunshine baby
I'm seeing you in the whole new light
Out of this world for the first time, baby
Ooh, it's alright (2x)
