

Anna Marucha & The Taxi Blues Band, Problems

„ Problems ”

(muz. i słowa Anna Marucha)

Last winter I probably got this mess following me
My problems all took a rare my feeling' were gettin' bad

Why I feel down when things go to...you try your best but I need still
really talk to myself and get the truth in all those words that we miss

I got this kick from you
Baby is bad what you do
Unless you know what you feel
Never blame on me

Let your feeling go round
With the passion that I find straight back to me
And save all the flover

Why I feel down when things go good
you say that is real but I need to
really talk to myself and find the truth
if is right as it seams

I got this kiss from you
Baby is hot what you do
Keep on this way if feel
This love-around is here

Why I feel down... feel down....feel down...

I'll take all this love from you baby you know that I'll do
I wount forget what we miss
Lets start again with kiss

Our feelings go round
from your touch to my mind and see
how close to each other... to each other...

Why I feel down when things go good
you say that is real but i need to
really talk to myself and find the truth
if is right as it seem

I got this kick from you
Baby is bad what you do
Unless you know what you feel
Try to say is real
