

# Anna Oxa, Take A Little Trip

(U. Morasca - j. Kumada)

Please just come around

take a little trip

all I need is tender love

come to me tonight

take a little trip

all I need is tender love

whi I feel so down

no I won't cry anymore

everytime you lose control

I fell I've lost a piece of soul

don't you think I'll be the one

who'll wait for you all my life

cause this time I had enough

give me love right now

please just come around

take a little trip

all I need is tender love

come to me tonight

take a little trip

all I need is tender love

your friends are there for you

they never know the things you do

in my heart there's no more space

for silly lies and lack of grace

don't you think I will be the one

come to me tonight

take a little trip

all I need is tender love

please just come around

take a little trip

all I need is tender love

come to me tonight

take a little trip

all I need is tender love
