

# Anne-Marie, Gemini

I don't feel like you know me anymore  
Like I don't know me anymore, yeah  
Say where's that girl we knew before  
'Cause we don't see her anymore, yeah  
Used to get lost in conversation  
But it seems we've had enough, enough  
'Cause I've been around the world  
Baby girl don't think of it like that  
I'm on the road, no telephone, no time to call you back  
Oh, you pushed my buttons too far lately  
Take that chip off your shoulder maybe

I'll wait forever just to get you alone together  
You're my hope from whole  
I swear that I'm sincere,  
Yeah I can't land on  
You know that I'll wait forever just to get you alone together  
You're my hope from whole  
I swear that I'm sincere,  
Yeah I can't land on  
You are my Gemini  
You are my Gemini  
You are my Gemini  
You are my Gemini

I ain't been sleeping much at all  
Too many meetings to recall  
And I've been swept up by a storm  
But didn't feel the calm at all, yeah, yeah  
And now I'm lost in conversation  
But I'm not being heard  
'Cause I've been around the world  
Baby girl don't think of it like that  
I'm on the road, no telephone, no time to call you back  
Oh, you pushed my buttons too far lately  
Take that chip off your shoulder maybe

I'll wait forever just to get you alone together  
You're my hope from whole  
I swear that I'm sincere,  
Yeah I can't land on  
You know that I'll wait forever just to get you alone together  
You're my hope from whole  
I swear that I'm sincere,  
Yeah I can't land on  
You are my Gemini  
You are my Gemini  
You are my Gemini  
You are my Gemini
