

Anneliese Van Der Pol, Over It (Stuck In The Sub

How could you know
That behind my eyes a sad girl cried
And how could you know
That I hurt so much inside
How could you know
That I'm not the average girl
I'm carrying the wait of the world yea
So can you get me out of here

Chorus
Take me away
We'll jump in the car
Drive 'til the gas runs out
And then walk so far
And we can't see this place anymore
Take a day off
Give it a rest
So I can forget about this mess
If I lighten up a little bit then I will be over it

I'm playing the role of the happy girl that no one knows
Inside I'm alone but I would never let it show
I get everyday to much work and not enough play
Over and over it's always the same yea

But you can make everything ok

Chorus

Over it
And when the world is closing in
I can leave it all and just walk away
I can always start all over again
I am closer to or better day

Chorus

Take me away
Take me away
Chorus

If I lighten up a little bit then I will be over it

Over it

I am over it
