## Annie Lennox, Love Comes

Love comes like a miracle...

Love comes to the rescue - whenever you need it Love comes like a miracle so you better believe It's true (it's true) - when I look deep inside of you Just when I think I cannot find Some peace of mind...

Love comes to the rescue - whenever you need it Love comes like a miracle so you better believe It's true (true) - when I'm lost for words to explain And my heart is filled with the kind of pain I just don't need Oh...

Love comes to the rescue (to the rescue) - whenever you need it Love (don't you know, don't you know that) comes like a miracle (like a miracle)...

## [Instrumental break]

Just when I think I can't find some peace of mind... Love - love comes... Love comes... Let it in...
