

# Annihilator, City Of Ice

I'm getting sick of everything I see  
and I hate what's happening to me  
this place is cold, it's turning me to stone  
these streets won't leave me be  
garbage, murder, misery, so this is ecstasy  
it's all a bunch of lies  
you try to take me and rape me of my dreams  
they're melting right before my eyes, city of ice  
I'm feeling anger and I'm feeling rage  
just like a puppet on a stage  
I hear the shots can't you hear the screams  
death is all around, this ain't no dream  
garbage, murder, misery, so this is ecstasy  
it's all a bunch of lies  
you try to take me and rape me of my dreams  
they're melting right before my eyes, city of ice  
I'm freezing up inside, there's nothing left to heal  
this can't be happening, this can't be real  
a living nightmare, what is it for  
cause I can't take it, I can't take it anymore, no  
I'm getting tired of all this pain  
I'm surprised I'm not insane  
it's never over until the end  
but I know I'll never be the same  
garbage, murder, poverty / so this is ecstasy?  
it's all a bunch of lies  
you try to take me and rape me of my dreams  
they're melting right before my eyes - city of ice
