

# Annihilator, Phantasmagoria

I have chosen you my friend, you're mine  
Locked inside this frightening dream  
Nowhere to hide  
Every night my demons you will see  
An apparition festival, through hell you'll ride  
Phantasmagoria  
Sleep well  
Phantasmagoria  
In hell  
Some one here is calling out your name  
Look out, I play inside your brain  
Fleeing from my shadows, you'll never pass my test  
Don't you know that ghosts never rest  
Phantasmagoria  
Sleep well  
Phantasmagoria  
In hell  
Approaching, you writhe, we take control  
Unholy inquisition, sentence very cold  
My servants, demons, take you down the hole  
Your mind destroyed, now I want your soul  
Phantasmagoria  
Sleep well  
Phantasmagoria  
In hell  
Phantasmagoria  
Phantasmagoria  
In hell!
