

Annihilator, Reaction

Annihilator
Miscellaneous
Reaction

accidental intake, down the throat,
the chances of survival, can be remote
extreme reaction, I got to medicate,
must inject the poison, I hope that I'm not late
push plunger all the way, pray to live another day
feel the rush through the veins, got to, got to uninvite the pain

panic setting in, the waiting has begun,
frustration, the damage has been done
it's getting hard to breathe, the swelling is intense,
the last shot, it's the end of my defense
push plunger all the way, pray to live another day
feel the rush through the veins, got to, got to uninvite the pain, pain
