Set The World On Fire

Snake In The Grass

'An acoustic, jazz, then electric guitar were used to give 'Snake' the variation of rhythm sounds needed to match the vocal 'mood swings'! Everything just seems to build and build as each verse takes you through the different stages of a 'not-so-good' relationship. Well, this was my story a while back and I'm sure a few of you can relate!'

You were the world to me, I thought that I would always be there for you

I was too blind to see, I would have climbed the highest mountain for you

You gave me something to hope for, you made me feel like new

But tonight it's over and we're through, and we're through

I guess you've taken me for granted

You've filled my world full of lies

I want to know, give me some answers

But you can't even look me in the eye

Well I've taken all the shit I will take from you

And I've only just begun to see the light

You're just a big disgrace

Turn around, get out of my face

You've got no fuckin' class

Reptile, you're a snake in the grass

All the times we had together

Were they real or just a fantasy

So tell me why I wasn't good enough for you

Just maybe you're not good enough for me

Well I've taken all the shit I will take from you

And I've only just begun to see the light

You've been running around, having fun with anyone

I don't believe you have the right

Why, tell me why you're crying

You've brought this on yourself

Lie, tell me why you're lying

It's time to put you on your shelf

Looks like I've taken you for granted

And I've seen right through your disguise

Tomorrow's going to be a better day for me

You can find someone else to victimise

Well I've taken all the shit I will take from you

And I've only just begun to see the light

You've been running around, having fun with anyone

I don't believe you have the right

Why, tell me why you're crying

You've brought this on yourself

Lie, tell me why you're lying

It's time to put you on your shelf

Well I've taken all the shit I will take from you

And I've only just begun to see the light

You've been running around, having fun with anyone

I don't believe you have the right
