

Anouk, Daze

Day in day out keep it out of sight
The things we do without a thought
It never has to end

Draw the blinds entertain yourself
'Cause there's no room for someone else
Just leave the world outside
Now do we even care

We all just walk around in a daze
Not knowing what it's all about
now baby wouldn't it be great
If we could turn it all around

Careless people will remind you
We're losing grip and need a shift
There's no easy way out

Some will tell you that there's nothing wrong
Just get on with what you want
It never has to end
Now do we even care

We all just walk around in a daze
Not knowing what it's all about
now baby wouldnt it be great
If we could turn it all around

Day in day out keep it out of sight
The things we do without a thought
It never has to end

Draw the blinds entertain yourself
'Cause there's no room for someone else
Just leave the world outside
Now do we even care

We all just walk around in a daze
Not knowing what it's all about
now baby wouldn't it be great
If we could turn it all around

Careless people will remind you
We're losing grip and need a shift
There's no easy way out

Some will tell you that there's nothing wrong
Just get on with what you want
It never has to end
Now do we even care

We all just walk around in a daze
Not knowing what it's all about
now baby wouldn't it be great
If we could turn it all around

One controls all that he sees
Would you like to see me crawling
One is what he wants to be
But he feels he's only fallin' down
One's in paradise
One searches his way back home

Well I say

One is cool
One is tired
One is smart
One is crying
One is dead
One is high
Did I wake up in time

We all are lost inside the maze
We cant find our way home
Now baby wouldnt it be great
if we could turn it around
