

Anouk, If You Were Mine

I lay my weapon down
Won't fight no more
Tryin' to get you by my side
Though I have been in love before
But they could never take my clouds away

Babe if you were mine
I won't hesitate at all
You just let me know
I'll be the one to catch your fall
Anything you need
Don't keep me away
You make me so confused
The one I love loves someone else

Don't stop the music it feels good
It keeps my mind of me missing you
Keep the rain away
There's nothing for me here
Without you by my side

'Cause babe if you were mine
I won't hesitate at all
You just let me know
I'll be the one to catch your fall
Anything you need
Don't keep me away
You make me so confused
The one I love loves someone else

Baby what's it gonna be
Is it gonna be her or me
Tell me that I have to do
'Cause I know that I'm good for you

And Babe if you were mine
I won't hesitate at all
You just let me know
I'll be the one to catch your fall
Anything you need
Don't keep me away
You make me so confused
The one I love loves someone else

Babe if you were mine
If you were mine
Babe if you were mine
Babe if you were mine
Babe if you were mine
If you were mine
